## VARIOUS SAFETY/RELIEF VALVES FOR CRYOGENIC AND GAS SERVICE

cryogenic valves

# HL

Various safety/relief valves  
FOR CRYOGENIC AND GAS SERVICE

### SPECIFICATION:

- **DESIGN:** High Lift in various design types.
- **SEATING:** To specification with hard or soft seating.
- **CONSTRUCTION:** To specification
- **SIZES:** 1/2" through 2" Screwed (15mm through 50mm) Screwed  
1/2" Through 6" Flanged (15mm through 150mm) Flanged
- **ENDS:** Screwed to BSP or NPT  
Flanged to specification.
- **SERVICE:** Cryogenic and Gas
- **TEMPERATURE RATING:**  
Dependent upon materials used.
- **PRESSURE RATING:**  
Dependent upon materials used.

*\*Manufactured in materials to meet international standards*

### FEATURES AND APPLICATIONS:

High lift safety and relief valves for cryogenic and gas process applications.

Available in gun metal, bronze, stainless steel and monel construction.

Suitable for oxygen service.
